

**New deadline. Please, apply until 5 September 2012**

**1 Research Associate - EGr. 13 TV-L HU 65% (third-party funded for 2 years, extendable)**

**Key number: DR/048/12**

Work place

Faculty of Agriculture and Horticulture - Department of Agricultural Economics

Temporary Professorship for Environmental Governance (Prof. Andreas Thiel (Ph.D.))

**Tasks:**

Research in the DFG (German Research Council) funded project "The scalar organization of natural resource governance: an institutionalist perspective on the transformation of water and marine governance in the EU". In coordination with the overall project the successful candidate is expected to develop a research concept and a methodologically innovative approach for the assessment and evaluation of institutional change in the context of the scalar reorganisation of governance of natural resources with specific focus on marine and freshwater ecosystems in the European Union, and in selected Member States (Spain, Portugal, Germany). The research may focus on the changes in the role of the state, changes in actor constellations and behaviour, changes in problem perceptions and approaches to solutions. The successful candidate is expected to carry out the research and produce scientific results for publication. Support for the overall project and the establishment of a new research area at the Faculty in close collaboration with the leader of the project and the overall team. Preparatory works for a doctoral dissertation.

**Requirements**

Necessary: Master of Science or equivalent; very good knowledge of institutional approaches and social scientific qualitative and also quantitative research methods, enthusiasm for academic research, very good knowledge of English, experience in scientific work, team spirit.

Desirable: experience with self-organized, effective scientific work, experience in researching environmental problems from a social scientific perspective, good command of Spanish / Portuguese or German..

Please, send the usual documents to apply for this position (cover letter, cv, main certificates). Additionally, we would encourage candidates to draft a sketch of a research idea and design concerning this position (< 1000 words).
